TYPE TEST REPORT

Test object:	Overhead Line Conductor
Designation:	ACSR 380/50 mm^2
Manufacturer:	**Egypt Cable Co., ECM – EL SAYAD** The industrial Zone, Bani Suef, Egypt
Tested for:	**Egypt Cable Co., ECM – EL SAYAD** The industrial Zone, Bani Suef, Egypt
Date of tests:	30th September 2024 – 04th October 2024
Project ID:	NAL-01/2024
Order/Contract:	PO: 19122023 29.12.20234
Test specification:	**IEC 61089:1991** **Round wire concentric lay overhead electrical stranded conductors** **IEC 62641:2022** **Conductor for overhead lines – Aluminium and aluminium alloy wires for concentric lay stranded conductors** **IEC 63248:2022** **Conductors for overhead lines – Coated or cladded metallic wire for concentric lay stranded conductors** **EN 60889:1997** **Hard-drawn aluminium wire for overhead line condcutors**
Tests performed:	The test object, constructed in accordance with the description, drawings and photographs incorporated in this report has been subjected to the following tests: Verification of construction and DC resistance measurement Tensile break test and Stress-strain test and Individual wire testing
Test results:	**The test object fulfilled the relevant requirements of the standard.**

This document has been issued by VEIKI-VNL Testing Laboratory of DEKRA TIC Testing Inspection Certification Ltd. in accordance with above mentioned test specification.
This document applies only to the test object. The responsibility for conformity of any product having the same designations with that tested rests with the Manufacturer.
This document comprises 32 pages in total (30 numbered pages, 2 pages of datasheet).
